To Whom It May Concern

This is to certify that Psychiatric Core Training posts are exclusively for training. Passing the Membership of the Royal College of Psychiatrists examinations (MRCPsych) is a mandatory part of completion by Core Training Year 3 in order to progress to Specialty Training Year 4.

The MRCPsych consists of both written papers and a clinical CASC exam. Trainees must also undertake an annual Assessment Annual Review of Competence Progression (ARCP); during this review exam progression is one of the criteria judged to allow the trainee to proceed with their training.

Dr Kate Lovett

Dean, Royal College Of Psychiatrists
